AWARD WINNING

Easiteach
Interactive teaching software for every whiteboard

RMEASITEACH SOFTWARE

Easiteach Studio is a powerful and flexible whole-class-teaching software product, which provides a wide range of cross-curricular teaching tools for all school teaching environments.

Easiteach Studio is the ideal environment in which to create and share interactive teaching materials. You can develop lesson content with Easiteach Studio and distribute it on CDs, by e-mail or via websites for use by other schools. Easiteach Studio can be used with the CVTablet, or just with a large monitor or data projector.

"The least expensive most feature rich tablet package on the market today"
